

REDACTED - FOR PUBLIC INSPECTION

LINE 510 - SERVICE QUALITY STANDARDS AND CONSUMER PROTECTION RULES COMPLIANCE

Cumby Telephone Cooperative, Inc. (the Cooperative) complies with applicable service quality standards and consumer protection rules as required by the Public Utility Commission of Texas (PUCT) and the Federal Communications Commission.

The rates, terms, and conditions under which the Cooperative operates are outlined in its Local Exchange Tariff, which is approved by the PUCT. The Cooperative's tariff contains provisions regarding its customer service and protection practices, including resolving disputes with the Cooperative, applying for service, the classification of business and residential rates, deposits, billing and payment for service, refusal, disconnection and cancellation of service. The tariff is available for customer review in the Business Office, as requested. Rates and terms of service are disclosed to customers upon application for service both verbally and in writing as part of a packet of information for new customers. Rates, applications and certain terms of service are also available on the Cooperative's website.

Service quality standards for voice service are established by the PUCT and the Cooperative consistently meets or exceeds the standards and provides reports to the PUCT, in accordance with the state commission rules.

With regard to broadband service, the Cooperative provisions its network and equipment to ensure that its customers can enjoy the speeds to which they subscribe. However, Internet speeds generally result from a "best effort" service and are dependent upon a number of variables, many of which are outside the control of the Cooperative.

The Cooperative complies with any and all consumer protection obligations under state law.

The Cooperative also complies with the following consumer best practices: (1) the Cooperative discloses its rates and terms of service to customers; (2) the Cooperative provides specific disclosures in its advertising; (3) the Cooperative separately identifies carrier charges from taxes on its billing statements; (4) the Cooperative provides ready access to customer service; (5) the Cooperative promptly responds to consumer inquiries and complaints received from government agencies; and (6) the Cooperative abides by policies for protection of consumer privacy.

Finally, the protection of customers' privacy and information is of utmost importance and the Cooperative has a policy and established operating procedures that comply with the FCC's Customer Proprietary Network Information Rules (47 C.F.R. §§64.2001-64.2011). Certification and a description of those operating procedures are filed at the FCC annually.

LINE 610 - ABILITY TO FUNCTION IN EMERGENCY SITUATIONS

Cumby Telephone Cooperative, Inc. (the Cooperative) is able to function in emergency situations. The Cooperative has a reasonable amount of back-up power to ensure functionality without an external power source. Standby power generators are supplied at the central office, remote switch sites, and repeater sites to ensure functionality without an external power source until power is restored. The network is capable of managing traffic spikes resulting from emergency situations.

The Cooperative is able to reroute traffic around damaged facilities. Although the Cooperative's ability to reroute traffic around damaged facilities is not absolute and may be limited in certain circumstances, there is a restoration plan in place for expeditious recovery of service, including splicing of damaged facilities when warranted.

LINE 1010 – VOICE SERVICES RATE COMPARABILITY

The Wireline Competition Bureau's most recent reasonable comparability benchmark for voice services is \$47.48, which includes the federal subscriber line charge ("SLC").¹

In the exchanges served by Cumby Telephone Cooperative, Inc., the highest single-line residential local rate, including any mandatory extended area service charge, is \$15.00. When the federal SLC and the state universal service fee are added, the total is less than the reasonable comparability benchmark of \$47.48.

¹ *Wireline Competition Bureau Announces Results of 2015 Urban Rate Survey for Fixed Voice and Broadband Services and Posting of Survey Data and Explanatory Notes*, Public Notice, WC Docket No. 10-90, DA 15-470 (rel. April 16, 2015).

LINE 1210 – TERMS & CONDITIONS OF VOICE TELEPHONY LIFELINE PLANS

Cumby Telephone Cooperative, Inc. (the Cooperative) offers qualified Lifeline subscribers a discount of \$13.75 (federal discount of \$9.25 + a state Lifeline discount of \$3.50 + an additional state reduction of \$1.00) to a stand-alone residential local exchange service line rate.

In all exchanges served by the Cooperative, the Lifeline rate for single-line residential voice service, including any mandatory extended area service charge and the federal subscriber line charge, is \$6.25 (\$20.00 less the \$13.75 discount).

The local exchange access line rate includes an unlimited amount of local calling minutes. Additional charges for toll calls associated with the stand-alone residential access line are billed at the rates of the long distance carrier chosen by the subscriber.

Qualified Lifeline customers may also subscribe to Cumby Flex Pak and Cost Saver Entertainment for Residential customers with the same reductions applied against that portion of the package rate that is for basic network service (one line only). These plans include a long distance calling plan, internet and broadband services as well as a choice of optional services.

See attached pages from the Cooperative's Local Exchange Tariff describing the terms and conditions of Lifeline service.
